

### Seasonal Employees

**Describe seasonal labor pool in your area:**

Baker County has a more seasonal economy than the rest of Oregon. From 2001 to 2005, the peak monthly employment for each year was 9.0% to 13.8% higher than the monthly low employment for that same year. In Oregon the difference was between 2.2% and 6.8%.

Source:

<b>Year</b>	<b>Monthly Peak minus Trough</b>	<b>% difference</b>
2001	490	9.7%
2002	670	13.8%
2003	460	9.4%
2004	570	11.8%
2005	440	9.0%
