Notes:

Permits may have multiple owners, addresses, parcel numbers and licensed professionals. For ease of use only the primary is listed for each

In some jurisdictions Construction Excise Taxes, Special Development Charges, and Metro Tax fees may be added to permit fees. The Total Pay amount includes all of these. The permit fee amount does not include them.

Records that have been converted (indicated with *) from a previous system may have all fees included in the Permit Fees

The square footage amount is the total of each square footage used to calculate the job value.

at the control panel that serves the fire alarm system at this location has failed and as a result of intermittent malfunctions has generated many false alarm calls to the Baker City Fire Department. In discussing a resolution with Chief John Clark, Fire Sentry Systems pr

roposes to replace the fire alarm control panel with a modern addressable unit. The current Pyrotronics system has been discontinued and replacement components are no longer available. In replacing the main control unit, the existing detectors, fire riser devices and

manual pull stations will also be changed to units that will provide specific point reporting of the location of any alarm or valve tamper. Locations of these devices will remain the same as the original designed system and will provide an equal level of protection to the pro

roperty and occupants.
